

Skilled Hands Deserve The Very Best!SM

STOCK NO. 0-1600: HEAVY-DUTY PUMP-TOP DISPENSER FOR 1 GALLON JUG

Stock number 0-1600, heavy-duty, pump-top dispenser easily pumps all of Gent-L-Kleen's lotion hand cleaners and liquid soaps, even those with pumice. It is manufactured with stainless steel, and other durable, quality materials to withstand heavy industrial use. This heavy-duty dispenser eliminates throw-away dispensers. It is guaranteed for life when used with one of Gent-L-Kleen's lotion hand cleaners or liquid soaps.

INSTRUCTIONS:

ASSEMBLING DIRECTIONS:

1. Fully connect straight edge of plastic dip tube to metal bottom of dispenser. This tube must go over the metal barb on the dispenser.
2. Replace cap or disposable dispenser on 1 gallon jug with the assembled 0-1600 dispenser.
3. Prime dispenser.
4. When dispenser has emptied the gallon, remove and place on a new, full gallon.

PRIMING DISPENSER FOR FIRST USE:

1. Push dispenser head down.
2. Seal opening in dispenser spout with index finger while releasing pressure and slightly pulling up on the dispenser head allowing the head to retract to its original position.
3. Continue steps 1 and 2 until product begins to flow through the spout.

Dispenser should prime and operate properly within a few times of priming. If after trying above you still have difficulty getting dispenser to operate, call Gent-L-Kleen Products, Inc. at 800-233-9382 or 717-767-6881 for further help.
